Reliability

Pavillion Medicals IV Poles are used in hospitals and provide top level performance time after time

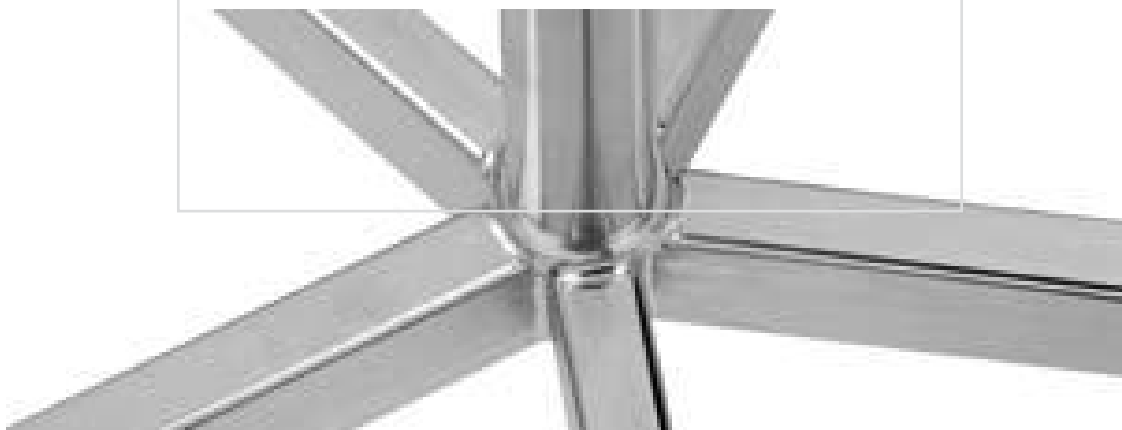

Robustness

Pavillion Medicals IV Poles are designed and manufactured to the highest standard to provide long functionality

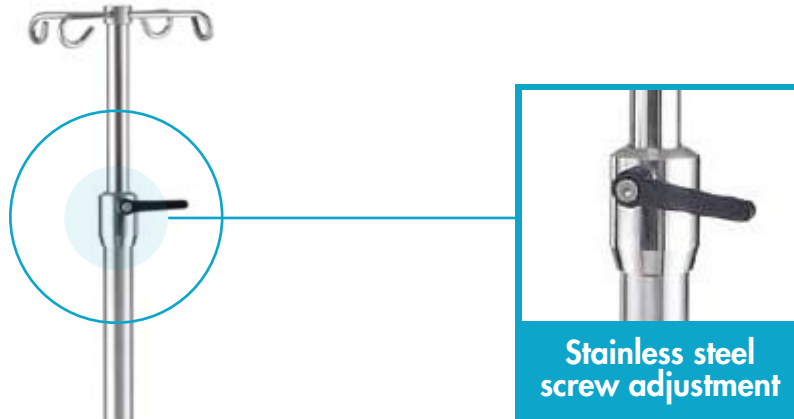

Resistance

Manufactured from stainless steel Pavillion Medicals IV Poles have a high resistance to corrosion

Intensive Care/ICU

Specification

Material - **stainless steel**

Fluid bag holder - **stainless steel 4 hooks – 5kg per hook**

Height adjustment - **stainless steel screw adjustment**

Height range - **1.55m – 2.55m**

Castors - **80mm (5 x anti-static and lockable)**

Total weight - **approx. 10kg**

Product code: PM ICU 1A

Intensive Care/ICU

Product code: PM ICU 2A

Operating Room/OR

Specification

Material - **stainless steel**

Fluid bag holder - **stainless steel 4 hooks – 2kg per hook**

Height adjustment - **one hand adjustment**

Height range - **1.35m – 2.15m**

Castors - **80mm (2 x anti-static and lockable, 3 normal)**

Total weight - **approx. 4kg**

With drip glass holder

Jointless welded castor base
for easy cleaning

Product code: PM OR 3A

Jointless welded castor base
for easy cleaning

Specification

Material - **stainless steel**

Fluid bag holder - **stainless steel 4 hooks – 5kg per hook**

Height adjustment - **stainless steel screw adjustment**

Height range - **1.9m – 2.8m**

Castors - **80mm (2 x anti-static and lockable, 3 x normal)**

Total weight - **pprox. 13kg**

Product code: **PM URL 4A**

Urology Specialist

Specification

Material - **stainless steel**

Fluid bag holder - **stainless steel 4 or 2 hooks – 3kg per hook**

Height adjustment - **electrical*, 2 button carer handset**

Height range - **1.35m – 2.15m**
